Finding Value in Virtual Training Sessions

The **Premium Onboarding Package** is a comprehensive program designed to help workspace administrators and managers quickly implement key workflows and onboard your team within a 60-day timeline. Comprised of six virtual sessions, each lesson is designed as a hands-on workshop to ensure the success of your managers, champions, and team from setup to launch. Sessions include:

1. **Onboarding Kickoff Call**
   In this 60-minute working session, we’ll identify your goals for the implementation stage and appropriate change management strategies, and review the onboarding program and program resources.

2. **Interactive Workspace Workshop**
   This 90-minute session covers our scheduling methodology, creating project plans, and data customization options with administrators or managers who will be responsible for creating project plans, scheduling work, and making workflow decisions.

3. **Check-In Session #1**
   Your next 30-minute call will focus on addressing specific setup and how-to questions, as well as the tasks to prepare your team for the Team Essentials Workshop and go-live of LiquidPlanner.

4. **Team Essentials Workshop**
   In this 60-minute interactive training, we’ll review the basics of our scheduling methodology with your entire team, then focus on efficient daily task management, productivity, and any last-minute questions.

5. **Check-In Session #2**
   During this 30-minute check-in call, we’ll address any questions you’ve received from your team, and share our insights and proven strategies to reinforce adoption of LiquidPlanner across the team.

6. **Onboarding Wrap-Up Call**
   Your final 30-minute call is reserved to review and identify which goals were accomplished during implementation, and provide guidance on best practices and resources for continued success with LiquidPlanner.

**About LiquidPlanner**

LiquidPlanner is predictive project management software that helps industry leaders accelerate time-to-market, stay ahead of the competition, and grow their businesses. Our patented scheduling and resource management technology enables engineering, IT, and operations teams to hit aggressive deadlines, keep pace with the evolving needs of customers, and maximize efficiency. Founded in 2008, LiquidPlanner is privately held and headquartered in Seattle, WA.
